CHAIRMAN MESSAGE

BURKI FOUNDATION, PAKISTAN

“CHAIRMAN MESSAGE”

Aslam-O-Alikum,

To serve humanity is our religious and moral duty. To fulfill this duty the Burki Foundation is working on all dimensions of life. Its basic aim is to educate those children who while passing through the school building stare at the students with longing in eyes. The Burki Foundation is providing health, education, employment and safety assurance to those people and such thousands of orphans, helpless and poor children who are suffering from miseries of life. Who are victims of unemployment and those who can't enjoy healthy life? The young generation despite of being hard working and having a spark of doing something new, is forced to live miserably just because lack of opportunities. In this fast paced challenging environment everything is not only difficult but impossible too. The Burki Foundation is eventful to provide a platform to the young people where they can not only prove themselves but can also grow with the society. The Orphans, helpless and oppressed those who have no one except you after Allah Let's have a look upon our lives that what have we done for our real life in this moral world; Our real motto of life is to serve the humanity. Allah has blessed you with the wealth so that you can serve others.

Sami Ullah Khan Burki
Chairman
Burki Foundation

BURKI FOUNDATION, PAKISTAN

VICE CHAIRMAN MESSAGE

BURKI FOUNDATION, PAKISTAN

“VICE CHAIRMAN MESSAGE”

We would like to express our thankfulness and gratitude to the development partners who have assisted us to continue our journey. We look forward towards strengthening this partnership for the benefit of the people living in hunger, poverty and hardship. We also extend our gratitude to all of our staff, program participants, local community and sponsors for their sincere contribution.

In today's world where inflation is at its peak, it is impossible for them to pay for their electricity, children's education and any medical treatment of any family member. How will the head of the family be able to provide for the needs of his children?

The result: he takes loans. He is not to be blamed because he is responsible to provide three meals a day for his family and he is forced to use the wrong means to fulfill his family's needs. In a way, your Sadaqa or Zakaat is being spent with your own hands.

At Buri foundation our aim is to inquire and survey to find the ones who need us.
